

Mobile Shelving

Space effective storage for all your mixed media and light industrial storage needs.

Space Optimisation

Mobile Shelving is an ideal solution where space efficiency is of prime importance. Conventional static storage equipment waste a lot of space as separate aisles are required to gain access to all the shelves.

Kardex Remstar Mobile shelving dispenses with the need for numerous access aisles as the shelving units are kept tightly together on rails. When a document is needed, the relevant unit is identified and an aisle is opened by moving the units apart, manually, mechanically, or electrically, without effort, smoothly and efficiently.

Kardex Remstar Mobile shelving can be precisely tailored to meet the needs of almost any document management system, by choosing from a wide range of fittings and accessories.

A range of applications: Perfect for all your office filing needs

Filing and archive

Archive filing is a perfect application for mobile shelving. Options for the office filing systems extend to lateral, hanging and lever arch files as well as binders, CD/DVD and stationery. With drawers, lockable doors and pull-out reference shelves, a wide range of accessories is available.

Retail

In both behind-the-scenes backroom storage or customer-facing storage, the objectives are the same: fast, reliable and efficient use of time and space. Whether housing shoes, CD/DVDs, books or clothing, Kardex Remstar has a shelving configuration to suit your exact needs.

Military

All Kardex Remstar mobile shelving solutions give maximum protection to articles stored, ensuring that no equipment failures are caused as a result of the time spent in safe housing and storage.

Art and museum

The range of specialist museum and art mobile storage has the protection and safe keeping of sensitive and valuable collectables at its heart. Low vibration levels on the electrically driven versions minimise chances of damage to items while maximising the storage density.

Sport and leisure

Whether housing golf bags or keeping more specialist sports equipment, space is always at a premium. Specialist accessories and fitments are available to ensure that whatever the storage problem, Kardex Remstar has a solution.

Pharmaceuticals

Whether you are storing large bottles of liquids or smaller pre-packaged medicines, Kardex Remstar has a solution that is tailor-made for your pharmaceutical application.
